

# HONEYSTICK *Always at hand*

**Honey collected on altitudes above 1000 m.a.s.l have 100 times more antibacterial properties than other.**

**These raw honeysticks are great for on-the-go nutrition. You can take them to work, use them to sweeten your tea/coffee, or even take them to the gym and eat during a workout. No mess, no fuss.**

**12 honeybees worked their butts off for each of our tasty honeysticks and we let them know how much we appreciate their hard work.**

**THIS IS NOT  
THE KIND OF  
HONEY  
YOU FIND  
IN THE  
GROCERY  
STORE**

Macedonian Honey (Elle Honeyfarm) is an all natural bee-keeping operation based in Macedonia. We use no chemicals, no antibiotics, no fungicides, no harsh treatments and most importantly, no filtering techniques in our operation.

Our first goal is to educate the public about the struggle of the honey bee and their recent decline. Our second goal is to produce raw 100% pure all natural honey that you can feel good about.

Macedonian Honey is just like a bee hive. We have many moving parts that all work together for 1 common goal: **Survival of the honeybee.**

# SAVE THE BEEES
